

Mathematical Systems Weaponry

A Benign & Dominant Weaponry Paradigm. All information may be enabled for this outcome.

1

KJV II Corinthians 10

3 For though we walk in the flesh, we do not war after the flesh:

4 (For the weapons of our warfare are not carnal, but mighty through God to the pulling down of strong holds;)

5 Casting down imaginations, and every high thing that exalteth itself against the knowledge of God, and bringing into captivity every thought to the obedience of Christ;

Systems Math and Logic enable innumerable capability for identification of so-called threats and their innumerable formalizations.

AND All can be easily expressed in familiar principal / principal open domain context. Even the Expression of Expressions earthly kingdom can be stated in systems context and parameters making it subject to principal / principal open domain expressions.

The diagram shows a red cylindrical object labeled 'Systems Weaponry' with 'ZMO' on the right end. To its left is a smaller icon of the same cylinder with 'Bible' written on it. Above and below the cylinder are several white cloud-like shapes. A blue circular symbol with a grid pattern is positioned above the cylinder, and a green '1+0' symbol is below it.

5

This diagram is similar to the one on slide 5, showing a red 'Systems Weaponry' cylinder with 'ZMO' on the right. It features a 'Bible' icon to the left, a blue grid symbol above, and a green '1+0' symbol below. The background is filled with white cloud-like shapes.

6

... AND a universal / pseudo requirement of viability within principal / principle open domains. Everything must add up, within this available domain

The diagram includes a stylized USA flag with stars and stripes, positioned to the left of a red 'Systems Weaponry' cylinder. The cylinder has 'ZMO' on the right end and 'Bible' on the left. A blue grid symbol is above the cylinder, and a green '1+0' symbol is below it. The background is a grid of small black crosses.

USA Governance viability traditionally includes an armed citizenry ...

Zim Mathematics and Systems weaponry can provide this.

7

Out of 48 Billion Systems Applications, there is the equivalent Non-Functional outcome for any identified object(s) of concern. Giving analysis, rationale for corresponding measure and principal outcome.

8

Question Z. OMS

What can you NOT do to Win a War?

$$\begin{array}{c}
 \underline{0} \\
 \underline{1}, \text{---} \\
 \text{WarA WarB ... WarZ} \\
 \hline
 \text{Win War} \\
 / \\
 \text{Answer}
 \end{array}
 =
 \begin{array}{c}
 \text{---} \\
 \text{---} \\
 \text{---} \\
 \hline
 \text{ANSWER}
 \end{array}$$

9

The open domain provides a developable / reducible answer and/or non-answer. Possible constraints and parameterizations are enabled. Systems principal object(s) make this feasible.

Question Z. OMS

What can you NOT do to Win a War?

$$\begin{array}{c}
 \underline{0} \\
 \underline{1}, \text{---} \\
 \text{WarA WarB ... WarZ} \\
 \hline
 \text{Win War} \\
 / \\
 \text{Answer}
 \end{array}
 =
 \begin{array}{c}
 \text{---} \\
 \text{---} \\
 \text{---} \\
 \hline
 \text{ANSWER}
 \end{array}$$

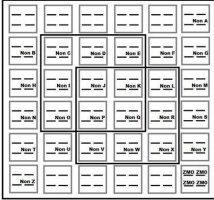

10

A Non-Reality Map

11

---	---	---	---	---	Non A
Non B	Non C	Non D	Non E	Non F	Non G
Non H	Non I	Non J	Non K	Non L	Non M
Non N	Non O	Non P	Non Q	Non R	Non S
Non T	Non U	Non V	Non W	Non X	Non Y
Non Z	---	---	---	---	ZMO ZMO ZMO ZMO

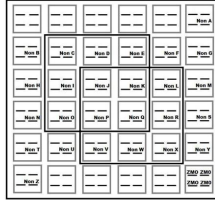

12

Systems Poetry and systems metaphors are helpful in implementing these proposed applications.

For instance, a + behavior could be interpreted as an identified functionality and a non behavior could be seen as some “stupid” or non-function in regard to this defined systems functionality.

13

Completion of given Reality / Non-Reality Map for object(s) of concern will provide a who, what, where, why, how of the provided system wide non-functional result. Enabling systems winning by not doing something or non-function.

“Non-Functional” Parametrizations across pseudo domains can give a “Stupid” Bomb. Or a systems completion by non-function.

14

A Systems Perspective on Weaponry of “Elimination”

Contemporary Systems Weaponry of Elimination:

- **Every(A-Z) Any(-) Some (A) Non (0)**
- **Every(W,X,Y) Any(-) Some (A,B,C) Non (0)**
- **Every(A,B,C) Any(-) Some (A) Non (B)**
-

Complete Systems Weaponry:

- **Every() Any(1) Some (1 **AND/Or** _0_) Non (1,0)**
- **Every(X) Any(1) Some (X) Non (X)**
- **Every(1,0) Any(X) Some (1 **AND/Or** _0_) Non ()**
- **Every(1,0) Any(1,0) Some (1,0) Non (1,0)**

15

Application Outline.

Principal + Open Domain

16

17

18

Don't forget these available outcome(s).

19

LIFE AND Death
 Where the Answer is the Question !
 $1 = 1+0 = 1, 0 = 0$

$1 = 1, 0 = 0 \quad 1, 0 = 1+0 \quad ||$
 $|| \quad || \quad 1 \quad 1+0 = 1$
 $0 = 1, 0 = 1, 0 \quad ||$
 $|| = 1+0 = 0 = 1, 0 = 1+0$
 $1 \quad || \quad || \quad ||$
 $- = 0 = 1 \quad 1+0 \quad 0$

Every(1) Any(1+0) Some(1,0) Non(0)
 Jesus Principality Object(s).

20

A concept outline for the Mathematically intuitive.

21

System Components & Operations

+	+	+	+	+		
A	+	B	+	C	+	D
+	+	+	+	+		
A	+	B	+	C	+	D
+	+	+	+	+		
A	+	B	+	C	+	D
+	+	+	+	+		

Giving an unimagine-able or un-calculable system or principal system express-ability.

22

ZMO

Every()Any(-)Some()Non()

Every()Any(+)Some()Non()

23

Partial vs. Complete Object(s) Express-abilities.

ZMO

Every()Any(-)Some()Non()

Every()Any(+)Some()Non()

24

A proposed dominant weaponry of express-ability and utilize-ability of all information. Giving measures of principal outcome(s).

1=0=1+0

System(s) Weaponry as Expressed
Every(1=0=1+0)Any()Some()Non()

25

All this can be applied to yourself

“This may not make sense without Mathematics”

26

The diagram shows a central red cylinder with the text "Systems Weaponry" written on it. To the right of the cylinder is a small icon of a Bible. Above the cylinder is a clock face. Below the cylinder is the mathematical expression "0+1". The entire scene is surrounded by several fluffy white clouds. The cylinder has "ZMO" written on its left end.

27

Love Never Fails

G-d As Expressed
Or the “I Am”, Operational System Unknown

Every(_) Every(X) Any(X) Some(X) Non(X)
Any (_) Every(X) Any(X) Some(X) Non(X)
Some(_) Every(X) Any(X) Some(X) Non(X)
Non (_) Every(X) Any(X) Some(X) Non(X)

Principal System Any

28

I consider this a very powerful systems-math principal express-ability AND Principal outcome. But the poetic, metaphor options for this enable some familiar options. I perceive this as an implicit/explicit origin and source to love and some recognized physical forces in implicit/explicit expressions as an unconditional logic. Poetic parametrizations of these could enable a Principal and Love outcome for any identified object(s), implicit/explicit systems, of concern.
