

ZIM'S DAILY "GREAT" ZIM MATH MONOLOGUE

STAY TUNED

9:05 PM 4/13/2024 – Question AND/Or Answer for AI: “What do you Know about stupidity?” Is there a possibility of Stupidity within the proposed AI B-X?

What was the original Stupid Behavior? Most likely some form of “Intelligence”.

Which is the dominant behavior? Stupidity or Intelligence? AND why? What reasons, reasoning does AI provide for not achieving Omniscience?

Is there awareness of partial systems expressions within AI?

6:38 AM 3/8/2024 – I foresee a GREAT China Boycott in near future. AND a California Boycott as well. ... My next computer will be made in the USA. And I will start looking more closely at Ford Motor Company. 7:24 PM 3/22/2024 – We sold our Toyota, and bought a Ford today!!!

5:12 PM 2/22/2024 – In my spare moments today I pondered diversifying and including in my Zim Mathematics content additional subject matter. I have been pondering the utility of Stuff, Stuff Science, theory and even stuff religious content. And in my own mind have made significant advances for Human knowledge and understanding. But I thought it would be helpful for this all to pursue understanding and knowledge of Vegetables.

First of all there is a need to know the origins and History of Vegetables. An understanding and epistemology of Vegetable Words. Spiritual implications Also of importance. Where were vegetables in creation. They are hardly mentioned. A k-12 orientation program to this neglected knowledge should be implemented ASAP. Eventually we will need to implement this in Higher Education, Advanced Vegetable Studies. Such as the Vegetable Rationale, Vegetable Analysis, and of course the VEGETABLE Outcome.

5:47 AM 12/18/2023

Quote from Church Sign: Who cares if you win the Rat race and you're still a Rat!

What is significance of being King of the Hill, If the hill is just another pile of beans. Just another road to know-where.

Pedophilia as serious crime vs. the state of corruption in Justice system!

6:35 AM 12/15/2023 – Right and/or Wrong within Principal vs Principle expression(s) paradigms. One a justification via Self Evidence and one a Justification via Pseudo Metrics.

6:00 AM 12/15/2022 – Expression of Expression(s) => Principle Non-Function

Every() Any (+) Some (A) Non ()

+ Every() Any (+) Some (B) Non ()

Every(A-B) Any (+) Some (C) Non (A-B)

A terminal event(s) and/or serie(s) that cannot be expressed.

11:34 AM 12/2/2023 – My thoughts while listening to 670 AM KLTT 730 AM today – “Space is the Absence of Matter” Zim in 1984 – Zim Olson and Zim Mathematics in Systems Math.

9:26 AM 11/3/2023 – “Where does Stuff come from”. I mean REALLY. Is there some divine or principal “uni-versal” design? Or does it just happen like you read on the bumper stickers.

5:41 AM 10/26/2023 – I think what we are experiencing across the information, news networks would be better characterized as Creative News, Creative Information, or News Art and Information Art. Not any sort of News or Information that I grew up with. Not to be confused with Stuff Art or Creative Stuff, which is strictly an omission of information methodology. Some individuals are not aware of these differences in News/Information and are confused. Like myself, when they are not “spelled” out.

10/24/2023 – 670 AM KLTT, Real Science Radio: My thoughts from this show and the following show on “talking in tongues” or creative language that is then successfully interpreted. Then thoughts of Zim Olson; Principalities One AND/Or Zero as expression(s) of expression(s) formulized, with Quantitative and/or Qualitative constructs, C_x / X_c . Constant Unit Unknown and Unknown Unit Constant. Hopefully revealing unrealized relationships of Quantity and Quality. I foresee possibilities in applications and understandings of math from this content.

Examples: $X_c * X_c \Rightarrow C_x$; $C_x/X_c \Rightarrow X_c/C_x$; $C_x * C_x \Rightarrow X_c$

Note: This work in notations of Cx and/or Xc were generated during my time in Denver in 1984. My successful interpretations of this notation at that time were limited. I see this current interpretation as a breakthrough in this regard.

11:37 PM 10/22/2023 – Crawford KLTT 670 Now – Jewish Voice:

Question: Credibility? Israel has one of the best “intelligence” in the world – What happened to Israeli intelligence re onset of this current war? Almost as bad as US intelligence, our media intelligence as well. I ponder this fact often. Thanks for giving an opportunity to share.

Zim

2:26 AM 10/4/2023 – In my best estimation, Zim Mathematics will be 100 percent successful. But this is not entirely true to myself either. My best estimate is that Zim Math will be 110 percent or more successful, as a genuine mathematics it holds a large measure of develop-ability / reducibility that is not predictable or calculable.

2:08 AM 10/2/2023 – 670 AM KLTT. “The Greater Context”. is per Zim Math also the Least Context. Every(1,0) Any(1,0) Some (1,0) Non(1,0)

6:23 AM 9/25/2023 – A Contemporary Sanity Quotient for our Woke freinds: Case in Point, what if our Famous Fuher Freind had ever bothered to Father Future “Fuher” children. And what if per some remote chance they didn’t quite turn out as expected. He may have been too busy rewriting his famous books to start World War II.

1:05 AM 9/25/2023 – The Uni-verse / Creation: Product of expression of expression(s) analysis and methodologies. Giving us analysis of “backwards”, “upside down” representations. The domain of outcomes is pseudo calculated. A partial system domain / methodology and outcome. Analysis, rationale, of our Creator as a complete expression(s) of principal object(s) will return principal knowledge object(s) and principal express-ability.

Choice: Choice expression(s) vs Choose G-d, express as 1 AND/Or 0

Freedom – As Systems Express-ability vs Systems Equity – gives Greater Good and Greater Bad. Requiring a real, lawful, democratic Government.

1:09 AM 9/19/2023 – Bob Enyart Live. Listening now 670 AM KLTT SE Denver – The Question: Is Satan Real? Of course, Satan is Real. So is Stuff, so is Science, So is Stupidity.

We live in a world of corrupt, fallible kingdom of intelligence. We as in all of us utilize this corrupt methodology of so called intelligence.

Jesus quite aware of this gave us a Principal kingdom. of salvation from this fallen sin system. Jesus as Father, Son, Holy ghost documents himself as the way, the truth and life. Or our rationale, analysis, AND outcome. This principal expression, expressed gives us a principal outcome. For all identified object/object(s), expressed/non-expressed, Everything else leads to nowhere, hell, or a terminal partial series/event(s) . Good night. Zzzz.

1:43 AM 9/11/2023 – Medicine via Social Media, Internet, TV, Radio, Freinds in general etc. is terrible. Although I find the Medical Model as professed by many MD professionals is also questionable a real MD in person professional is where I begin medical care.

1:43 AM 9/11/2023 – Bible Discussion I had: “Female/Male properties mathematically represented as percentages”. Zim Math, “I am not some apple pie, or portions of a pie”. Nor could some apple pie be the “Way, Truth, or Life” and some acceptance of an apple pie show me the way to eternal life.

4:53 AM 9/2/2023 – Zim Math and Systems Concepts put all so called claimed divergent paradigms on the Mathematical Map.

7:24 PM 7/30/2023 – A possible explanation for the incredible belief systems arising in our country. I heard somewhere in our Great internet info system that now days the majority of High School graduates do not possess grade school proficiency levels of Mathematics.

3:41 AM 7/9/2023 – Listening to Real Science Radio on KLTT.... Zim Mathematics: True Statement “Psychology is Satanic”. Also a True Statement / Zim Math, “Science as Expressed is Witchcraft”.

You might ask, how can this be so true? True Statements do not give Truth. Methodologies of Expression of Expression(s) are corrupt and fallen methodologies. They return only non-express-able, terminal event(s)/serie(s). A heavenly/earthly knowledge system can be returned with Principal and/or Principal open domain express-ability and methodologies. zimmathematics . com .

7:21 AM 5/26/2023 – Thought for today: Foundations of Pseudo Qualitative logic. There are none. “If George Washington could do it, So can Zim” ? “It don’t mean I am AND it don’t mean I am not” ZMO.

12:44 AM 5/23/2023 – Mathematics as the tool of definition vs metaphor. Math not a limiting or defining tool, more like a tool of possibility. Thoughts before beginning of a presentation on Definitions Art, Math Mining Methods.

12:38 AM 5/23/2023 – Definitions within Systems Math Framework? A functional context, function and domain for any given stated object(s). (This is before my morning cup of coffee)

12:13 AM 5/20/2023 – Intelligence / Intelligent: As 1 AND/Or 0; as expressed / non-expressed; for object and/or object(s)

6:19 AM 3/27/2023 – Mathematics as Expression(s) Viability or Expression(s) develop-ability / reducibility viability. General Language as application viability.

6:19 AM 3/27/2023 – Mathematics as Expression(s) Viability or Expression(s) develop-ability / reducibility viability. General Language as application viability.

Language/Communication: Every(A-Z) Any (A) Some(A-Z) Non (A-Z)

Mathematics / Expression Viability: Every(A-Z) Any (+) Some (1) Non (A-Z)
Every(A,B,C) Any (+) Some (1) Non (A-Z) / Every(X,Y,Z) Any (+) Some (1) Non (A-Z)

12:46 PM 3/20/2023 – Universal health care coverage gives the profession of upper business management the opportunity of earning a good name. Where this is not just some Marxist ideology and goal doomed to economic collapse, but where

general population health can be turned into general economic wealth & profitability. I have never managed much on my own. Mostly my own personal business and Mathematics. My father in his later years considered Management his chosen field of employment.

As a consumer rep to Colorado Access Medicaid for many years, I told them when they informed us at a consumer meeting that Colorado Access was providing services to many times more members within the same budget, that this was indeed an honorable goal if it could be realistically achieved.

12:23 AM 3/17/2023 – Origins to “Christian daily Work Ethic” where you can create object(s) greater than self, as expressed by/with Father, Son, Holy Ghost. Jesus – New Testament – “Even you can do greater things”. Listening to KLTT 670 AM.

2:22 AM 3/15/2023 – Earthly-Pseudo Knowledge: _ , As Expressed.

9:28 AM 3/11/2023 – Systems Equalities – Problem Equalities vs. Answer Equalities.

3:29 AM 2/26/2023 – Listening to Real Science Radio – 670 AM KLTT

Mathematics vs Prose (Metaphor)

Evidence (Mathematical) of Creation as Viable Expression(s) of Principal object(s) One. Is this the Creator G-d Evidence. A discussion maybe more for poets / theologians. Evidence of other Math expression(s) and origin(s) as well. As Pseudo origins give partial systems expression(s).

DNA as System and /or Sub System(s) as expressed object(s) could bear much fruit (“Jesus”) Mathematically, Poetically, Theological, and EVEN Scientific.

7:40 AM 2/18/2023 – As I explained to my wife the other day. We all or will have to cover our behavior on planet Earth with the open domain (Holy Spirit). And this is without exception. I think Jesus did this as well.

7:30 AM 2/18/2023 – From Zim Math headquarters in Denver Colorado USA, my perception is that a significant portion of the contemporary political left, view Zim Mathematics as largely acceptable. The documentation of their error or at least incomplete presentation of their views, is self-evident.

3:56 AM 2/13/2023 Definition Art: Satan – Equalities of Object(s), A Man-infestation as Principle-One giving terminal event(s)/serie(s). An expression System of Omitted Info, said to not exist. For 2023 case in point, See Below

Math Art of Adam eating Apple in G-d's Garden. Assuming G-d's dominion of Expression of expression(s). End Result in 2023 !

6:05 PM 2/12/2023 – Science is known for “worshiping” the Creation. Their domain of worship subsequently is a calculated pseudo Open Domain. Mank-kind has adopted this methodology as valid approach to meaning/knowledge. Science ends up giving us Stuff knowledge, Man kind receive a stuff return in the end as well.

Functional distinction(s) in principal and / or principle rationale essential to a principal and/or principle outcome.

6:56 AM 1/22/2023 – “CHOICE” ART – (1 Or 0) The Point is, and the Mathematical and system(s) points are: “CHOICE”; there are many Math and Systems context to the use of this term. When used in legal or any arguments without reference to these wide uses of CHOICE or any symbolic, physical, moral, quantitative, qualitative statements, we are saying absolutely nothing. And consequently, we are all very unproductive.

12:51 AM 11/21/2022 Belief in Gravity vs. Belief in Jesus: You need a System and/or Sub System Dictionary for this one also.

Electrical charges and induction – Listening 670 AM KLTT , I said to myself. I bet anything I can do a quick number on this with Zim Mathematics – System(s) math.

Per Zim Math: Science utilizes entirely, implicitly / explicitly, expressions of expressions of object(s) as systems.. Such as / Science electrical charge would be some. Every()Any(+)Some() Non() Every()Any(+)Some() Non() . Electrical charge as expressed / Zim Systems Math

1:01 AM 10/7/2022 – Just finished Listening to Bob Enyart Live. Mr Enyart I hear passed away from Covid. I am sorry. Thank you for this program tonight anyway. Jesus tells us you can tell a tree by its fruit. Alluding to this difficulty you mention in determining a true believer / belief. Per Zim / Zim Math.: All this stuff we hear about is so called true. But maybe having nothing to do with truth. Per Bible: Jesus is the father, son , and holy ghost... And the way, the truth and life. He who belives in

me can do as I and have eternal life.... Per Zim / Zim Math: Jesus and his given Math principality gives us “The Analysis, Rationale, and outcome” . I suggest this Math Principality as One AND/Or $_0$ as expressed for all Object(s). AND as providing us this Analysis, Rationale, AND Outcome. Perhaps this needs fine tuning to provide the required Fruit. Evidence AND/Or Faith a method utilized for this in past. Material evidence only one portion of fruit expression in Zim Math. Jesus returning should be considered within a complete Principal / Principle expression(s). Otherwise your talking more stuff. Jesus gave us principal and principal open domain express-ability making all such stated object(s) feasible. A good measure for the fruit and tree test.

670 AM KLTT Real Science – 1:40 AM 10/5/2022 – Reality? Good Question I guess. Physical Reality? Math Reality. Qualitative Based. Numeric Based. . Maybe a fool did create the universe? Another GREAT Question. I choose the Jesus Principality for much of my understanding as a Mathematical Principality. I have a YouTube Channel as well: “I am the rationale, analysis and outcome”. I have a section on Creative Origen Jokes myself. VERY amusing. At least to myself. Zim

8/1/20122 1230 AM -670 AM KLTT SE Denver: Yes I am listening. I still say Scientists pick and choose from their more disciplined partner Mathematics.... And thus we have the Stuff outcome. In the beginning there was Jesus, and Math I guess. And they came to dwell among us. As an alternative to origins to intelligence, systems math enables origins to stupidity. Worth looking into I think. Tuesday flying off to Philadelphia for Math Fest, Booth 215. Science may be real, but so is “Stuff”.

5/2/2022 Einstein and Friends are not Mathematicians: My Math professors would tell students time and physics are simply applications and paradigms. Per Zim Mathematics these are another pseudo, partial variation of complete, partial, open system Express-ability. Only.

6:16 AM 3/26/2021 Ancient Greek philosophers taught us that Humanity possesses ownership of Universal Intelligence capabilities. They were never able to tell us this includes Humanities capability and Ownership of Universal stupidity .

5/26/2022 Jesus was not a conservative. I don't consider myself a conservative either. I am NOT a non-conservative either.

One of my favorite Question / Answers is that “Gravity is not a law of G-d”, “Gravity can be easily identified as another variation of partial system expression(s).

4/10/2022 - I was informed via email recently that the **Math Association of America's discussion forum, "Connect" was deleting my discussion group** "Math Foundations and Logic". Main reason cited was lack of interest demonstrated. Admittedly there have been NO discussions initiated on my forum. Even though I regularly update the content. I told them this also, as I find this interesting. ... **There are more fishies available on the www.**

4/5/2022 - Zim Math documents that the availability of principal object(s) express-able as systems Math/object(s) basically makes any stated objects as such feasible.

The dominion of partial systems expression and methodologies give outcomes of ever diminishing returns.

Critics of US constitution may cite this as simply another man made paradigm. Problems arise when self mandated paradigms make themselves the critique authority of all other paradigms. Subjectivity and / or Objectivity analysis a required tool for such a mess as we have in our country now.

Thoughts. The "Kodak Moment" Life Psychological Profile - There are various combinations of pseudo life profiles as good, bad, ugly. Some might be entirely ugly, ugliest. Then stepping back or in a retrospect an entirely different perspective is there and always has been. What is your **Systems "Kodak Moment" Life Profile?**

His-story - as Principal Object(s) 1, 0, 1+0. 1 AND/Or 0. For all Object(s). Greeks provided Expressions, express-ability, Expressions of Expressions viability. Abraham gave us Principal Expressions. Jesus provided Principal Expression AND/Or Principal Non-Expressions Viability

The Miracle of the Bible: "G-d can make Sons of Abraham from the Rocks". Our contemporary miracles are "Making Rocks out of the Sons of Abraham". Dominion of Partial Systems Expressions and their Methodologies gives us this imminent result of ever diminishing returns.

3/27/2022 In my 12 years of schooling in Mathematics a number of Mathematics teachers and professors would occasionally confide to the entire class that time is simply another paradigm.

" The GREAT I Am AND I Am Not "

3:29 AM 2/8/2022 - **Bible completely correct and true, as written, inspired by Father , Son, Holy Ghost. (Interpreted as such).** The Dictionary is not sufficient and will provide only a can of worms for Fruit.

3:20 AM 2/6/2022 - I was listening to Best of KLTT. So I am sending my response to you. **The item I was responding to was responses of Muslims received to the KLTT, Gospel. "We are telling Lies" Etc.** Mr Muslim of course is essentially correct, in that even us Believers utilize methodologies of Expressions of Expression (Partial systems of knowledge) or recognized in old / new testaments as the Tree of Knowledge of Good and Evil.. A Faithful student of Bible of course realizes essential facts of the Bible. Such as: 1, Jesus / Christianity is widely viewed as not a religion. By documentation of Jesus in Bible and many Believers. 2. The view by non-believers that there is NO Viable Non-Expression or valid non-Expression as claimed by Christians. Ie the Holy Spirit or Principal and Principal Open Domain and Express ability. They deny the recognized methodology and Math + Logic, even though perhaps implicit / explicit, of Evidence AND/Or Faith. 3. Yes, We ALL are liars, INCLUDING the Muslims, unfortunately. The available Principal and Principal Open Domain makes available the Transcendence of our Earthly Lying. Givings us corresponding Available Analysis, Rationale AND Outcomes. Earth AND/Or Heaven. Express ability + Interpretations. 7:03 AM 2/6/2022 - In olden days of Reformation and invention of Printing Press it was realized that one Oaf reading / interpreting the Bible was no

advantage to every oaf reading and interpreting the Bible with the real availability and power of the Principal / Holy Open Doman (Spirit)

2:49 AM 2/5/2022 - **Zim Math preferred Methodology for commentary. Is to document events, facts with Systems Mathematics + Art**, and then attempt to provide the Pseudo - Language descriptive commentary.

11:42 PM 1/14/2022 - Question / Answer: **What role should Universal Stupidity take in our quest for knowledge.** Too seek new frontiers. Control. You name it. Whatever? There is the Jesus Principality. Our Question AND/Or Answer, Analysis, Rationale and Outcome. Zim Olson and Zim Mathematics. Math Foundations + Logic.

6:09 AM 1/12/2022 - FYI: Clearly; **The United States of Bureaucracies** has proven itself mathematically challenged.

6:55 AM 12/28/2021- **Listening today 670 AM KLTT SE Denver - "What, Who, Where, Why is the Anti Christ". Per my understanding of the Real Anti-Christ phenomena as described in the Bible and as I write in Zim Mathematics, zimmathematics . com . I have an outline including A as the Anti Christ and as the outline fully expressed gives us H-II. This gives us more information about this than meets the eye for many people. How - ever I know also from the Bible, that Satan as the Anti-Christ reads this Bible and uses it to his benefit very well. The Bible also Describes Jesus as expressed as the "Prince of Peace" and the source to all our good fruit. Satan of course has read this as you say and uses it to our wrong ends. Zim Olson and Zim Mathematics uses Systems Interpretations of knowledge, Bible, and experiences as a source to Principal, Principal open domain Earthly measures of rationale as I outline at zimmathematics . com**

4:40 AM 12/28/2021 – **"Jewish" influences on Christianity",
Historical/Non-Historical. Zim's thoughts on this** tonight

The G-d of Israel gave us a lawful source to knowledge. "G-d is One", "We are all created in the image of G-d". AND this was shown and evident to be VERY good and useful for us folks on Earth. We get Science, Government, Mankind Laws. All that had any viability can be shown to be derivatives of this understanding. The Old Testament however told us that ALL Men kind are utilizing the Tree of Knowledge of Good and Evil AND this ultimately would send us ALL down the road to H-ll. As created in the Hebrew image of G-d. or n-t. This important fact was not given serious consideration and/or understanding to most of us on Earth.

Senor Yeshua, attempted to bridge this gap in understanding. and gave us understanding including Math and logic of a Principal and Principal Open Domain express ability for all object(s).for us on Earth. This gave us an Eternal knowledge/Earth express ability as from Earth. / Heaven. and Blah, blah, blah, you can find the rest on zimmathematics.com . I do thank you all for your talks on 670 AM. . I can find most of you on the internet.

:24 AM 12/27/2021 – **Definitions of Interest**

Satan? Satan Is ___; ___, ___; ___. ___, ___. As Expressed. ...

Truth? The Trinity As Expressed. For any object and/or object(s).

The "GREAT" I AM? The Great I am AND/Or I am Not. Also as expressed.

"The Way, Truth and the Life" and outcome; $_1_$ AND/Or $_0_$ as expressed for any object(s). Our available Analysis, Rationale AND our Outcomes.

Principal - Identifiable, Verifiable Object/Object(s) within all domains. Expressed, Non-Expressed, etc.

Principle - No requirement per say of Identifiability, Verifiability within All domains. Express-ability an important ingredient of this Expressions/Non-Expressions. Domains of choice, selection/omission intelligent methods.

His-story - as Principal Object(s) $1, 0, 1+0, 1$ AND/Or 0 . For all Object(s)

Pseudo Science / Creation - $0, 1, 1$ or $0, 1+ 0$ For all Identified, selected/Omitted object(s).

Dysfunction/chaos - $0 = 1 = 1$ or $0 = 1 + 0$

Earth / Heaven Express-ability and Knowledge - $0 = 1 = 1+0 = 1$ AND/Or 0

8:27 PM 12/1/2021 - RE Spirit and Soul. Our spirit as always has been and will be. Our soul, as originated with Earthly Birth and eternal spirit.

8:14 PM 12/1/2021 - Believers of Torah work from Tree of Knowledge of Good and Evil". The physical, material. Believers in Jesus, work from Earth/Heavenly Kingdom made available and shown with Trinity as Expressed or The Jesus version of the "Tree of Life". New Testament "You can know the Tree from its Fruit" documents all this.

4:16 AM 11/11/2021 Jesus as Documented in Bible "I am the way, the Truth, the Life", Jesus / Trinity as expressed and for all Object(s) gives us the Math + Logic within Methodologies of Evidence And/Or Faith to give our Heavenly / Earthly Salvation outcome. Material AND Informational.

2:02 AM 11/26/2021 - My 94 year old father passed away about 2 months ago. And I was looking at papers of his that I had written Mom and Dad years ago. One such Mathematical conjecture I had written was like this, " God is Dead, Solve for X". For Example $A-A = 0$, Solve for A. On quick review of more of these letters, I saw much humorous math art/ math like this, of interest to at least myself.

Wife/Ruth said I needed to clarify this post:

I don't think G-d is dead.

A conjecture is meant to be subject to mathematical proof or disproof. And in the process develop more mathematical understanding. Such as WHY this is also a MATHEMATICALLY absurd statement.

Solving the sample equation of $A - A = 0$ as representing a sort of existential death presents its own mathematical absurdities. A alternative expression may be offered, but I feel that would boil down to like wise mathematical absurdities

A Minus expression within any systems context is purely partial in context and meaningful outcome. This gives us no information of relevance to ANYTHING else. $A-A=0 \Rightarrow A=A !$ or $G-d = G-d$, Not exactly representing death, but not providing information about any

Death or any such death statement. ... $A = 0$ as system 0; or $G-d = 0$, or system 0 instead of the open variable of $G-d = a$ system X , would give basis for the statement Math is Dead.

A-A within systems expression would provide meaningful answer / question and outcome. Like what do you mean by such a statement! I guess there REALLY is no such thing as a dumb Question / Answer! In systems expression, anyway.

This is patently obvious to mankind or in Mathematics should be said to be Self evident. My father was unique, and will not be replaced. When ever I offered some critique / commentary toward my Dad, he would simply smile.

5:00 AM 11/4/2021 - I take Jesus as assuming only principal / principal express-ability (As within all domains) . Jesus within a pseudo partial domain and its express-ability was not a part of his heavenly / earthly kingdom. Express-ability within all domains is often seen as anti-great, except as Jesus **Trinity as expressed**. Per my understanding, Zim.

As I am willing to tell all those within hearing, " I expect to make global impact on available intellectual infrastructure with my Zim Mathematics content. Where Some identified object(s) that never added up will add up or always add up. And some object(s) will be shown to never add up to anything at all, which we thought would always be shown to be additional. Contemporary knowledge of expressions of expressions will be shown to return only partial systems expression, with ever diminishing returns. And that there are identifiable principal object(s) express ability that can be shown to return expressions develop-able / reducible to any domain or recognized domain."

7:48 AM 10/22/2021 To address interesting topics of this AM

I too believe as Evidence AND/Or Faith expressed that G-d knows "everything". He has our answer to any or our questions any place and any time. G-d as Trinity expressed and promised by Jesus documented in the Bible can provide Any Question AND Any Answer. I believe this can be documented as The GREAT I Am AND/Or The GREAT I am not. Mathematically documenting Jesus statement "I am the way, the truth, and the life" . Even when we get to heaven we will not know as G-d. But he is able to provide our ANSWER AND/Or QUESTION. Even in Heaven!!!! Or Heaven/Earth?

5:51 AM 10/11/2021 - A life observation of mine is that people who are silent a lot, are not always deep thinkers but quite often have nothing worthwhile to say.

4:17 AM 10/11/2021 - M-nkinds, "Worship Addiction" per Zim/Zim Math manifested in constantly giving meaning to (Like a dog playing fetch) object(s), symbolic, pseudo, partial, physical, "everything". Utilization methods include co-opted, and assumed ownership of partial expressions of partial expression(s) methods and outcomes. This gives us constantly less meaning over time and expression(s). I guess we are all created equal, including equal idiots. Which we can do nothing with, without utilization of principal and principal express-ability

5:59 AM 10/9/2021 – Subjectivity AND / Or Objectivity as the tool of application for our Democracies.

Without this material **and** informational tool of application as exemplified with the Democratic voting mechanisms of this day, our ruling governments will acquire the consistency of ruling bureaucracies, oligarchies, dictatorship, rule by chaos and general dysfunction, and other incredibly dumb Earthly-stuff creations and **outcomes**.

1:53 AM 5/14/2021 - I see no evidence of systemic "Racial" issues in this country. Strength based opportunities or employment opportunities and development may help this perception. I am not totally sure what that would involve either. I can hardly hold a job myself, but that does not stop me from making serious contributions to math and science.

10:07 AM 5/13/2021 - In this contemporary modern era my favorite News, Information, Inspirational, Religious, Education, or How To broadcasts are the "Simpsons".

4:16 AM 5/13/2021 - In my understanding of reading entire Bible, Jesus would not ever be considered to be ANY kind of conservative. Although he did say, I came to not abolish the law but to complete or fulfill the law. Everything has been considered to this day to be completed or complete-able with our current understandings and knowledge methodologies. But Yeshua as Trinity expressed showed us different.

9:31 AM 5/2/2021 - Jesus did not abolish the law, or make us all a system of equity. **There are NO systems expressions or transformations of equity....** Jesus did not abolish the law. G-d did not send a garbage man to take out all our garbage. (There would be nothing left) He sent a Savior, our Answer and Question. He can make sense of anything including the old testament.

4:04 AM 5/1/2021 - **Glacial Melting and Climate Change:** I am not convinced in your argument. Mainly because the earth was totally covered by ice 10000 years ago, when it began to melt to state it was in only less than fifty years ago. What caused all this, and who is to say we are not only in the same process that began 10000 years ago till this day. If we were to omit pollution, this may not change that process that began 10000 years ago. Reducing Man-made pollution acceptable. **Not time to sell the farm though.**

5:06 AM 4/29/2021 - "Put on your Amour of G-d" Every day. Maybe should include knowing what you are talking about. **When Galileo tells the Pope he is a Dope, you need to know what you are talking about!** Galileo had his armor on , but the Pope was not prepared to answer convincingly. No one seemed prepared or willing to pursue the Answer AND/Or Question outlined by Jesus.

4:28 AM 4/24/2021 - Zim Mathematics Identity - Express-able as Who, What, Why, When, Where, How as object and/or object(s), Systems and/or Sub System. Providing no systems equity, uniqueness only. **There are no systems expressions of equity.**

3:46 AM 4/23/2021 - As pointed out in Zim Mathematics the Jesus Principality of one AND/Or ___ express-ability is considered dominant until the "End of the Age" as stated in the New Testament of the Bible. Or in Zim mathematics till all object and/or objects are express-able as one and/or ___ , The End of Time. A principal marketing strategy of Zim Mathematics is, "No payment till H-ll freezes over, and Heaven appears". Otherwise recognized as the "Great Commission". As expressed and As is, we are all living on "Borrowed" Time.

5:51 AM 3/7/2021 - Intelligence THOUGHT of the day: "What has nothing to do with anything else?"

THE Answer AND/Or Question: "Nothing"

1. $0 \Rightarrow 0$; 2. $0 \leq 0 \dots N$. Nothing!

(Time in a Nut Shell or our origins to contemporary Nada) Not all nothings (zero) are equal either. Except maybe some pseudo expressions of zero. For example: Pseudo expression(s) of Time. This can be shown as the origin to the famous "Tree of knowledge of good and Evil"? Otherwise known as H-ll.

7:57 AM 3/7/2021 - "Blessed are the poor in Spirit".... For they shall receive "Women's Month". (By US / World Governments). Actually it says something a little different in Bible. A-Men, Anyway! Note: As for myself, Zim, all I need is a few cups of coffee (Tooo much spirit)

4:06 AM 3/10/2021 - Am I right or wrong: Contemporary News and Info pushes, "Facts and Information", Factual Information as sufficient criteria, standard and verification for presenting the public their content. While their principal criteria clearly is whether it supports their chosen Agenda.

5:44 AM 3/12/2021 - Congenial Discussion of Comparison, Contrast Muslim and Christian Faiths. With Arabic Muslim Taxi Driver who spoke good English: Zim: "I addressed apparent Problems with some understanding the important Christian concept of the Trinity. Bible never states Jesus as the same as G-d. However Christian Faith states that all Trinity G-d Heads are different but express-able as the same. And that if you cannot understand this much, you will not be able to comprehend the Christian Faith. I told this Taxi Driver I try to document how this is so, past, now, future and in all contemporary respects, at

Zimmathematics.com . **I conceded to this man that it is problematic that I have not read one word of Koran and he had not read the Bible as we may be arguing points that do not exist in each others minds and addressing only non-arguments."**

8:58 AM 3/12/2021 - More Religious commentary:

1. The Hindu Faith. A Religion of interest and merit. I am not sure what the identification of thousands of Earthly / Heavenly deities provides Humanity and Earthly inhabitants in terms of additional knowledge, analysis, rationale or outcomes.

2. The Buddha faith. The rational, spiritual development of our knowledge is said to bring us to Earthly and Heavenly domains. The Bible teaches us in old and new testament that the Earthly knowledge kingdom of expression and expressions express-ability and corresponding domains provides outcomes of non-express-able terminal events and/or series, only.

3. Jesus - Christian Faith: Billed as our Lord and Savior. By providing additional paths of analysis, rationale, Earthly and / or Heavenly knowledge our question and/or answer. Making available eternal heavenly and earthly life for Humanities followers. Saving us from the Earthly dominion of Earthly knowledge kingdoms.

4. This wonderful commentary is mostly based on second hand knowledge of the Muslim, Hindu, Buddha faiths. I have read no original text of these religions.

5:22 AM 3/20/2021 - Appendment to above Religious Commentary with Arabic, Muslim Taxi Driver:

Taxi Driver tried to communicate that some Biblical figures above the rest of us and can be looked up to for Truthful information. He stated Moses as a prime example. I replied that Christian Faith documents how ALL of us fall short and can be accurately described as sheep who only hear / understand the "voice" of Jesus on which path to take. Thinking afterwards to myself that this is evidenced historically, contemporarily, and with rationale/analysis as the case for Humanity on Earth.

5:59 AM 3/20/2021 - Seeking Legal Help in Discrimination case for Bald men. This is overwhelmingly self-evident. in field of politics, preachers, car-salesmen. Need an Attorney to pursue this. Can't figure out myself how this could happen !

4:14 AM 3/24/2021 - USA as the GREAT Melting pot has NOT outlived its usefulness. When individuals blur the distinction between a melting pot of US G-d Created individuals and the melting pot of intellectual BS that cause our nation's contemporary problems.

6:17 AM 3/24/2021 - The more the public watches of contemporary News, Media, and Internet Content; the less they end up knowing about anything.

6:23 AM 3/24/2021 - If Jesus had come to Earth and just performed his many miracles and not taught of the principality of the Trinity making ownership of this knowledge kingdom and domain available to man-kind, we would have thought him to be only some GREAT Zeus from above. And that would have been the end to that.

7:25 AM 3/24/2021 The Jesus Principality provides the missing link between material and informational concerns of Humanity. Knowledge, law, moral, spiritual, temporal, etc.

6:16 AM 3/26/2021 Ancient Greek philosophers taught us that Humanity possesses ownership of Universal Intelligence capabilities. They were never able to tell us this includes Humanities capability and Ownership of Universal stupidity .

6:29 AM 3/28/2021 Religion Commentary Continues - Catholic Church:

Some of us may not consider the Catholic Pope as such a Holy Father to us. AND Maybe no holier than the rest of us Yahoos on planet Earth. Just one more sheep in the flock of Jesus. The "Way and Truth and life" talked about in the Bible, is attained as intelligence method with individual access to the Bible as individually interpreted with universally available principle / principal

Father/Son/Holy Ghost Dictionary. Also within our faith modeled as Faith AND/Or Evidenced.

9:11 AM 3/28/2021 - Ghandi the Hindu leader is quoted as saying " I am impressed with Jesus Christ but not so impressed with his followers"... I say Amen to that. There are NO intelligence tests required to be a Christian or to accept and believe Jesus, that I am aware of.

3:59 AM 4/12/2021 Noticed a lot of lawyers gone to politics. Also noticed not very many "Honest Abes" in politics. Or Honest Babes either. (Sorry, couldn't resist the play on words). **AND** to be Honest, I am not much of a lawyer myself.

5:21 AM 4/16/2021 - Thoughts while watching TBN and Dr David Jeremiah, and drinking my coffee in my easy chair from ARC Thrift store. "Many people these days choose to eliminate / disregard the Jesus Principality express-ability option, and choose instead the tried and true expression of expressions dominion. The dinosaurs are trying to make a comeback in this country."
