Slide 5:

Zim Mathematics provides outlines of math object(s) within systems context. A complete list of express-able object(s) is also provided within these systems outlines. In past history this same approach was accomplished with a cherry picking, pick n choose methods. Zim Mathematics makes quick work of analysis, rationale and available outcomes of the contemporary and GREAT paradigms of our day.

19

"Pride"

The Great "I am"
AND
Humanity's ownership.
OR
1 AND/Or _0_.
Per available Jesus Principality of
Analysis, Rationale AND Outcome.

Per Zim Math: We are AND We Are Not.

20

M-n kind Symbolic Knowledge
Like a Dog playing fetch

M-nkind's "Worship Addiction", per Zim Math, manifested itself in constantly giving meaning (Like a dog playing fetch) to object(s); symbolic, pseudo, partial, physical, or any object(s). Utilization methods include co-opted and assumed ownership of partial expressions of partial expression(s) methods and outcomes. This gives us constantly less meaning over time and constant expression(s). ....

I guess we are all created equal, including equal idiots. We can do nothing with this, without the utilization of principal and principal express-ability,
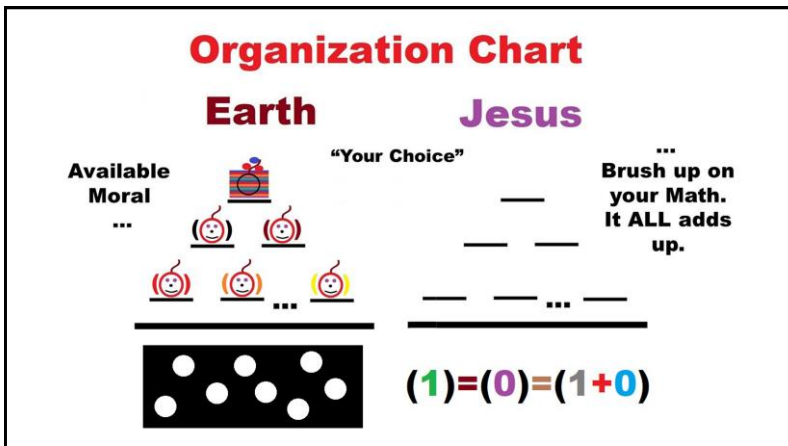

21

Material and Informational mechanisms
of Democracies

Systems Math & available rationale explains *Why* Information is not equal to material. And why monarchies and dictatorships fail. Expression(s) of info give some other different, unique info/matter expression.

___. As Expressed, An Idolatry.

Our Earthly source to incomplete expression and express-ability.

Non Z					ZMO ZMO ZMO ZMO

31

Our Modern Era Knowledge Virtuosos.

&

Aspiring Know it All's.

32

A point of interest in Earthly Systems Math: A rationale of why we find No Know it all's on Earth after eons of so called Earthly evolution may be found in the following system expression; Every(A) = Any( ) = Some ( ) = Non(A), documenting the complete Every Functionality of A is the functional equivalent of knowing nothing about A.

Another Zim Math Explanation: Why Information does not give matter. Mankind's utilization of expression of expression(s) methodologies where object(s) are systems with systems components. Any info expression would give a unique matter expression. Principal/Principal Open Domain express-ability is our answer.

33

"Average", "Norms", or "Normal" have nothing to do with Statistics.

A metric of pseudo express-ability and domain is not express-able to a principal domain.

34

It is Zim's futuristic Vision, no one will spend immense fortunes of time, money and energy with these learning institutions that invest heavily in established pseudo learning-domains involving pseudo political express-ability, that give us only limited, terminal express-ability outcomes.

In my younger years I felt the Higher Common Denominator was the target in media dialogue. Now days, with diversity, inclusion, unit-versal equality it seems the lower common denominator has been the target dialogue in media. Resultant outcomes on content offered the public is completely outrageous.

35

Mathematics vs. Pseudo Political Religion
Equality / Inequality

Mathematics Express-able
as
Equality and/or Inequality for Any Object(s).

Pseudo Political Religion Selection/Omission Express-ability

as Equality or Inequality, per some CHOICE.

Whatever supports this CHOICE serving as their Truth.

36

The Holy Spirit is not a God. That is what New Age teaches. No father, No holy spirit. A Zero in a computer is Zilch without a one digit. Much social instruction may be derivable from this example.

Any such One would be incapable of calculating *itself* to some Narfdum level, without a dedicated Zero digit.
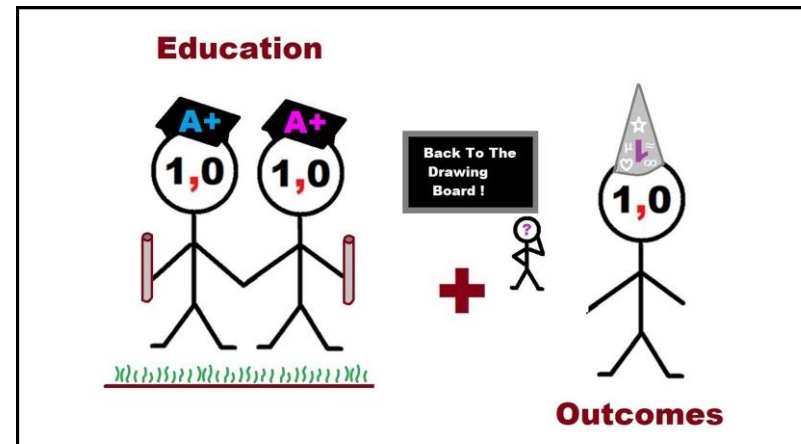

37

Our *universal* Mathematical applicability

EQUALITY
vs.
The Promise

38

EQUALITY: The REASON we consider our country the Land of Promise and Opportunity is we consider and value our citizens as individuals. In fact we have somehow known that all of us are absolutely unique, and that none of us are equal, at ALL. AND subsequently within our Country's G-d given domain, recognized within principal and principal open domain express-ability, all of our unique citizens have unique value that no one or anything else has. AND no one else can provide. This gives us foundations + rationale for valuing our citizens as individuals. The Jesus **Promised** Principality serves as the founding rationale/analysis **AND** outcome. Our recognized source to wealth, health, freedom, prosperity & "Gold".

39

40

Chosen Truth

Any Contemporary Truth appears to consist solely of whatever supports a chosen agenda.

**Contemporary Scientific Methods**

.. Consist of Omission of information and methods, to address chosen concerns.

Renaissance Methods - Objectivity AND/Or Subjectivity

Principal and Principal open domain, The chosen domain/agenda and outcome. Evidence AND/Or Faith the method.

Contemporary Objectivity Methods

Adjusting Facts to fit contemporary issues. "All things are possible with Duct Tape!"

41

Zim Mathematics

A contemporary origin to issues with the topic of "unity" lies with only our Mathematical challenges.

With Available Biblical Principal / Principle express-ability, it can all add up as a principle / principal "fruit salad".

42

Solve these Expressions for "Equality"

Every (__) Any(_A_) Some(__) Non (__) =
Every (__) Any(_A_) Some(__) Non (__).

or

Every (__) Any(_A_) Some(__) Non (__)
Every (__) Any(__) Some(__) Non (__).
_____

Every (__) Any(_A_) Some(__) Non (__).

43

Objectivity AND/Or Subjectivity

It appears from our contemporary dialogues many feel that systems concepts are not necessary or even relevant in the development and application of knowledge. Reconciling Subjectivity vs Objectivity of no concern. without documentation and utilize-able systems concepts all our GREAT Knowledge is doomed.

44

Contemporary Physical Sciences utilize only a partial axiomatic imagery available within Mathematics. This has been done with full consciousness and application outcomes as the principal focus.

45

Earthly Weaponry Domains

These stem from a Earthly source of   Partial System Express-ability. This is Mathematically recognized as Principal and/or Principle Expression(s) of Earthly identified target Principal and/or Principle object(s) giving outcomes of a non-recognizable partial systems. These are said to give outcomes that are non develop-able / reducible to pseudo domains or domains of concern.
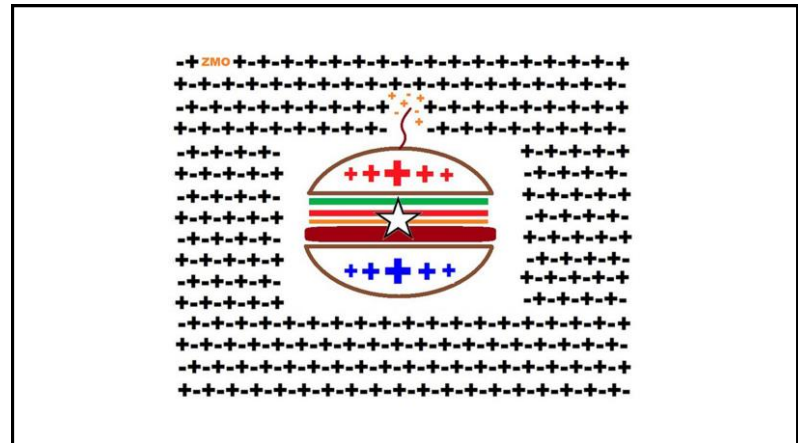

46

Contemporary viewpoints of reality, utilize express-able object(s) with so called *cumulative architectures*. Addition functionalities are used extensively.

Expressed cumulative architectures can be shown to NEVER add up to Any identifiable object(s). Or a principal express-ability and domain.
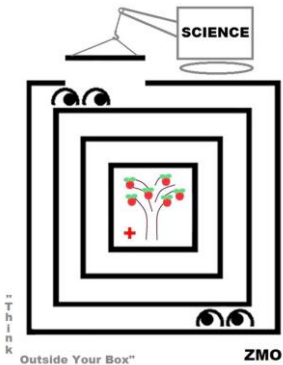

Available System(s) express-ability can document this phenomena. Principle outcomes are not verifiable. Principal outcomes verifiable within available express-ability.

47

48

Science tells us they have or can bottle the Genie, but we find the Genie has not only bottled Science, but the rest of us as well. Science un-able to "Bottle" the Jesus Principality, assumed it was not real. At some point in the development of Science, "they" decided we will take it from here and "we" don't need this G-d Stuff anymore.

49

The Systems GREATest Idea in History

Because

Expressed as System(s)

Every(A-Z)Any(BECAUSE)Some(A-Z)Non(A-Z)

50

"Adversarial Networks"
First heard of this on Social Media. A topic of Recent Papers.

?

Zim's first thoughts on what ever this could be: This is beyond the scope of what is generally considered a utility of Networks. However, we are dealing with mathematics here. Such proposed system expressions could consist of partial / pseudo but non-combine-able network series. System complete-ability would provide a dominant viability/express-ability.

51

Stuff: the Earthly Dominant Contemporary Method.

Expression(s) of Stuff or Partial Systems Expressions serve as Math-Kind's source to sustenance; food, intelligence, express-ability, knowledge, and the contemporary Genius source.

Without access to this Stuff, Man-kind would perish. Some of us get buy by consuming Bologna, others consume the Real thing.

Words of Wisdom from Zim Mathematics:

Be Careful !
It's a Jungle Out There.

52

A Historical Summary of our Greatest Ideas

$$\frac{\underline{1}}{\underline{1,1}}$$
$$\underline{1,1,...,1}$$
$$\overline{G\text{-}d}$$

Non express-able within Earthly partial principalities
