

I can identify 47 billion applicable systems concepts to any object(s).

This is without including the mankind's claim to expression of expressions dominion. This content here enables explicit expression options for these. Including already utilized principal expressions of 1,0, 1or 0, 1 and 0, 1 and/or 0 in system combinations and variations. All such stated object(s) are feasible.

Metaphors are parametrizable as Systems AND/Or Sub Systems. Locating Earthly & Heavenly Principal/Principle Object(s). The Promise and Jesus Principality serving here again, as our analysis, rationale, AND Outcome.

Zim Mathematics is my version of Creative Math.

I utilize systems concept interpretation of recognized Math, Art, Knowledge, Physical, Lawful, Moral object(s), to easily attain added levels of explicit understandings. I claim a dominant Mathematics paradigm with these understandings. I term this as a “System and/or Sub System as expressed for all object(s)”. Which easily enables additional/viable understanding of all recognized paradigms, their tenets, logic, origins, applications. This contrasts with the ever-increasing use of Omission of Information Methods to attain understanding, educate, and communicate, across our society today. All object(s) are said express-able as systems. And always have been but only on an implicit basis. Each systems object(s) is said to consist of four components. 1. Every(x) the Functional context. 2. Any(x) or our math f(x) a functional behavior. 3. Some(x) a resultant intersection of the four components giving the Systems And/or Sub System mathematical result. 4. Non(x) – The non- stated functional result, open or pseudo-open domain.

This system approach is not so surprising as a mathematical revelation. But might be seen as an un-tenable Mathematical paradigm. However, the four behavioral components explicitly expressed / non-expressed with available principal object(s) 1; 0; 1 or 0; 1 and 0; 1 and/or 0 in various combinations can easily document the behavior of all recognized knowledge paradigms and any undocumented paradigms to-date. **Zim Math and Systems Concepts put all claimed divergent paradigms on the Mathematical Map.**

System Components & Operations

Math and Logic & Systems Express ability

Expressions of Expressions methods produce misinformation, partial system imagery and information, truth vs false, right vs wrong, Life or Death paradigms, terminal events and/or series. Variation in form only, the same "curse".

Earthly Expression of Expressions Kingdom produces uniqueness of any object(s). Explaining why there is no such thing as a systems expression of equity. This also explains phenomena of Earthly time.

Government is a product of earthly expressions of expressions knowledge kingdom that produces only these same partial systems outcomes.

Truth and False statements can consist of evident developability and reducibility within principal or principle, expressions and/or non-expressions domains. Right vs wrong could be characterized as either available domain specific, or developability / reducibility within expressions / non expressions.

The "Promise" as from God and/or Country. ... Our only guarantee of freedoms, wealth, health, "Gold" is our access to Principal and Principal open domain expression(s) and express ability. This principality as substitution of other Principalities & paradigms.

Expressions of Expressions Methods have given us a Science that studies an “upside down” “backwards” universe. With no exceptions. Outcomes consist of event / series of terminal or non-express-able nature.

Principal express-ability, analysis, rationale would enable principal outcomes. Within recognized domains. A more workable, viable Truth definition. A “Stonehenge” knowledge outcome to our “modern era” may not be inevitable. “Zim Math Farms?”

This Gives us Mathematical Origins & Truth.

The Jesus Principality (1,0) express-able with the given Earthly Paradigm, Systems and / or Sub Systems for all object(s) provides us our express-ability with develop-ability and reducibility. This has made possible famous paradigms in physics, science and the Bible. Such as Gravitation, G-d is Love. A Zim Math expression of an “Unconditional Logic”, which is a complete expression as Systems and/or Sub systems with available principal object(s) 1, 0, 1+0, 1 or 0, 1 AND/ Or _0_

“Our Father who art in Heaven hallowed be thy name”

$$(1) + - \times / \Rightarrow (0) + - \times / \Rightarrow$$

$$(1+0) + - \times / \Rightarrow (1,0) + - \times /$$

“Thy Kingdom come, thy will be done, on Earth as it is in Heaven”

$$(1) +, -, \times, / = (0) +, -, \times, / =$$

$$(1+0) +, -, \times, / = (1,0) +, -, \times, /$$

The Original Lie.

The Truth is __.

The Truth is we are all liars. Dependence on the Earthly Knowledge Kingdom of Expressions of Expressions gives us chronic misinformation outcomes. We are responding to “upside down”, “backward” information of the expressed creation. Versus the available I-AM/I-AM-Not, Principal Express-ability.

This is a favorite form of man-kind’s idolatry. Giving meaning to object(s) as expression(s)
