KJV II Corinthians 10 3 For though we walk in the flesh, we do not war after the flesh: 4 (For the weapons of our warfare are not carnal, but mighty through God to the pulling down of strong holds;) 5 Casting down imaginations, and every high thing that exalteth itself against the knowledge of God, and bringing into captivity every thought to the obedience of Christ;

Zim Mathematics and Systems Express-ability can provide this.

The open domain provides a developable / reducible answer and/or non-answer. Possible constraints and parameterizations are enabled. Systems principal object(s) make this feasible. Object(s) as the identified systems components in Mathematical variation, combination may help achieves this outcome. Expressed/Non-Expressed.

I consider this a very powerful systems-math principal express-ability AND Principal outcome. But the poetic, metaphor options for this enable some familiar options. I perceive this as an implicit/explicit origin and source to love and some recognized physical forces in implicit/explicit expressions as an unconditional logic. Poetic parametrizations of these could enable a Principal and Love outcome for any identified object(s), implicit/explicit systems, of concern.
