Zim Mathematics provides outlines of math object(s) within systems context. A complete list of express-able object(s) is also provided within these systems outlines. In past history this same approach was accomplished with a cherry picking, pick n choose methods. Zim Mathematics makes quick work of analysis, rationale and available outcomes of the contemporary and GREAT paradigms of our day.

Science or Stuff? How are we supposed to know the difference. Sometimes we think we know the difference. Then sometimes we know we don't know the difference.

Science(x) or Knowledge in its own image of f(x). Or more easily understood as

Stuff Science.

Science(😊)

Is this a good System(s) question! Probably not.

Genesis 3:11 of Bible - KJV
 "... Hast thou eaten of the tree, whereof I commanded thee that thou shouldest not eat?"

Every () Any () Some () Non ()

At some point, "Adam" Mankind assumed a system(s) ownership. As the creator-creation, source, ruler, of intelligence, and all knowledge. This expression of expression(s) event(s)/series is described in the Bible as the Fall of Earth/Mankind.

Knowledge is said to have taken on many new forms, qualities and attributes. Which are addressed in the Encyclopedias of our day(s). All are documented in the Bible as consisting of expressions of expression(s) and terminal non-express-able event(s)/series.

10

The Modern Knowledge of our day has assumed even more variations of this intelligence modality. Where working knowledge is assumed by leaving out information from these encyclopedias of information.

In fact, this is an assumed methodology to acquiring additional understanding. Non like and non combinable attributes are simply "omitted" to acquire this new knowledge. All within the same fallen knowledge methodologies. So called new and additional knowledge is a variation in form only with same outcomes.

Is there any benefit to this Stuff knowledge?!

11

Contemporary Physical Sciences utilize only a partial axiomatic imagery available within Mathematics. This has been done with full consciousness and application outcomes as the principal focus.

Principal express-ability needs to be in the driver's seat and Pseudo Science in the Passenger seat. Pseudo Science needs to do the Mathematics.

"Adam" assuming ownership of express-ability left us the partial-system domain of analysis and rationale. The source to all our contemporary GREAT paradigms. Expressed systems gives us all our irreconcilable logic.

Traditionally, the United States recognizes that if Everything does not Add up to self evident Principal domains and express-ability, the Bubble will burst, no matter how GREAT an Idea you have.

US economy , citizenry, Government is still governed by market pressures . It is recognized there is no such thing as open domain dominion. The Principal AND Principal Open Domain is the closest we have to this.

Expression(s) of Stuff or Partial Systems Expressions serve as Math-Kind's source to sustenance; food, intelligence, express-ability, knowledge, and the contemporary Genius source.

Thought of the Day:

Foundations of Logic for Qualitative, Pseudo or Partial Statements?

The are no foundations of Logic for any Qualitative Statements. Partial system(s) do not provide information for principal logic and logic domains.

28

Our Modern Era Knowledge Virtuosos. & Aspiring Know it All's.

29

A point of interest in Earthly Systems Math: A rationale of why we find No Know it all's on Earth after eons of so called Earthly evolution may be found in the following system expression; Every(A) = Any() = Some () = Non(A), documenting the complete Every Functionality of A is the functional equivalent of knowing nothing about A.

Another Zim Math Explanation: Why Information does not give matter. Mankind's utilization of expression of expression(s) methodologies where object(s) are systems with systems components. Any info expression would give a unique matter expression. Principal/Principal Open Domain express-ability is our answer.

30

**“Average”, “Norms”, or “Normal”

Statistics.**

A metric of pseudo express-ability and domain gives outcomes of partial systems express-ability only

31

It is Zim's futuristic Vision, no one will spend immense fortunes of time, money and energy with these learning institutions that invest heavily in established pseudo learning-domains involving pseudo political express-ability, that give us only limited, terminal express-ability outcomes.

In my younger years I felt the Higher Common Denominator was the target in media dialogue. Now days, with diversity, inclusion, unit-versal equality it seems the lower common denominator has been the target dialogue in media. Resultant outcomes on content offered the public is completely outrageous.

32

Mathematics vs. Pseudo Political Religion

Equality / Inequality

Mathematics Express-able
as
Equality and/or Inequality for Any Object(s).

Pseudo Political Religion Selection/Omission
Express-ability

as Equality or Inequality, per some CHOICE.

Whatever supports this CHOICE serving as **their** Truth.

33

The Holy Spirit is not a God. That is what New Age teaches. No father, No holy spirit. A Zero in a computer is Zilch without a one digit. Much social instruction may be derivable from this example.

Any such One would be incapable of calculating *itself* to some Narfdum level, without a dedicated Zero digit.

34

Our *Universal* Mathematical applicability

EQUALITY VS. The Promise

35

EQUALITY: The REASON we consider our country the Land of Promise and Opportunity is we consider and value our citizens as individuals. In fact we have somehow known that all of us are absolutely unique, and that none of us are equal, at ALL. AND subsequently within our Country's G-d given domain, recognized within principal and principal open domain express-ability, all of our unique citizens have unique value that no one or anything else has. AND no one else can provide. This gives us foundations + rationale for valuing our citizens as individuals. The Jesus **Promised** Principality serves as the founding rationale/analysis **AND** viable outcome. Our recognized source to wealth, health, freedom, prosperity & "Gold".

Chosen Truth

Any Contemporary Truth appears to consist solely of whatever supports a chosen agenda.

Contemporary Scientific Methods

.. Consist of Omission of information and methods, to address chosen concerns.

Renaissance Methods - Objectivity AND/OR Subjectivity
Principal and Principal open domain, The chosen domain/agenda and outcome. Evidence AND/OR Faith the method.

Contemporary Objectivity Methods

Adjusting Facts to fit contemporary issues. "All things are possible with Duct Tape!"

38

Solve these Expressions for "Equality"

**Every () Any(A) Some() Non () =
 Every () Any(A) Some() Non ().**

or

**Every () Any(A) Some() Non ()
 Every () Any() Some() Non ().**

Every () Any(A) Some() Non ().

39

Objectivity AND/OR Subjectivity

It appears from our contemporary dialogues many feel that systems concepts are not necessary or even relevant in the development and application of knowledge. Reconciling Subjectivity vs Objectivity of no concern. without documentation and utilizable systems concepts all our GREAT Knowledge is doomed.

40

Earthly Weaponry Domains

These stem from a Earthly source of Partial System Express-ability. This is Mathematically recognized as Principal and/or Principle Expression(s) of Earthly identified target Principal and/or Principle object(s) giving outcomes of a non-recognizable partial systems. These are said to give outcomes that are non develop-able / reducible to pseudo domains or domains of concern.

41

43

Contemporary viewpoints of reality, utilize express-able object(s) with so called *cumulative architectures*. Addition functionalities are used extensively.

Expressed-partial cumulative architectures can be shown to NEVER add up to Any identifiable object(s).

Or a principal express-ability and domain.

Available System(s) express-ability can document this phenomena. Principle outcomes are not verifiable. Principal outcomes verifiable within available express-ability.

42

Science tells us they have or can bottle the Genie, but we find the Genie has not only bottled Science, but the rest of us as well. Science unable to "Bottle" the Jesus Principality, assumed it was not real. At some point in the development of Science, "they" decided we will take it from here and "we" don't need this G-d Stuff anymore. Pseudo Scientists Need to do the Math.

44

“Adam” from the Book of Genesis of the Bible tells us:

**There is no
Open Domain Development giving Dominion.**
