KJV II Corinthians 10

**3 For though we walk in the flesh, we do not war after
the flesh:**

**4 (For the weapons of our warfare are not carnal, but
mighty through God to the pulling down of strong
holds;)**

**5 Casting down imaginations, and every high thing
that exalteth itself against the knowledge of God, and
bringing into captivity every thought to the obedience
of Christ;**

How to win a war by not doing a system something?

Take an Expression of Expression(s) war paradigm.
Perhaps applying the

Expression(W)Any(W+)Some(A)Non(X)
and solve for some X?

Where all object(s)/components are express-able in
47 Billion variation.

A Systems Perspective on Express-ability of “Elimination”

Contemporary Systems Function of Elimination:

- **Every(A-Z) Any(-) Some (A) Non (0)**
- **Every(W,X,Y) Any(-) Some (A,B,C) Non (0)**
- **Every(A,B,C) Any(-) Some (A) Non (B)**
-

A Systems Completion w/ Universal Express-ability:

- **Every() Any(1) Some (1 AND/Or _0_) Non (1,0)**
- **Every(X) Any(1) Some (X) Non (X)**
- **Every(1,0) Any(X) Some (1 AND/Or _0_) Non ()**
- **Every(1,0) Any(1,0) Some (1,0) Non (1,0)**

Earthly Weaponry Domains

These stem from a Earthly source of Partial System Express-ability. This is Mathematically recognized as Principal and/or Principle Expression(s) of Earthly identified target Principal and/or Principle object(s) giving outcomes of a non-recognizable partial systems. These are said to give outcomes that are non develop-able / reducible to pseudo domains or domains of concern.

9

Question Z. OMS
What can you NOT do to Win a War?

10

Winning War / Conflict by NOT doing systems something: Systems
Nothing could solve the systems war / conflict using functionally equivalent principal object(s). 1;0 ; 1+0; 1,0; to complete non-functional systems war component

11

Behavior as systems object(s) documents human behavior to make it more understandable.

Zim Math Object(s) as Systems, express-able as expression of expressions, expressions, expression / non-expression. Giving our mathematical series / event(s). All Domains, Heaven/Earth.

Expression Mathematics

18

Mathematics, particularly Systems Math. A Principal deterrence to Pseudo and Partial Systems State dominance. Establishing a Uni-versal but otherwise perceived impossibility, a mathematical Front to partial system(s) confrontation. 47 Billion universal systems express-abilities can easily start to fuel this option.
